Students who cannot meet this deadline are allowed to do late registration on the payment of N3,000.00 (Three thousand naira only). However, no registration will be allowed after four weeks from the beginning of a given semester.

Registration guidelines shall be distributed to students before registration begins.

ORIENTATION

An orientation programme is normally arranged for new students by the Students' Affairs Division in co-operation with other related departments. The orientation programme is intended to enable new students to settle down and adjust to University life.

As part of the Orientation activities, freshmen are able to meet the Vice-Chancellor, other Principal Officers, Deans of Colleges, and other officials of the University. They are also introduced to the various facilities in the University and put through the use of the University Library.

MATRICULATION, MATRICULATION NUMBER AND IDENTITY CARD

MATRICULATION AND MATRICULATION NUMBER

Every student will be required to take part in the matriculation ceremony, which is the official acceptance of new students to the University system.

Each student is required to take an oath and sign a declaration to signify that he will observe the statutes, rules and regulations of the University. After the oath taking, students sign the Matriculation Register which contains the names of all the matriculants serially arranged, by department, in alphabetical order.

USE OF MATRICULATION NUMBER

Each student is assigned a matriculation number upon registration. No official student paper or document may be regarded as complete or valid unless it carries the correct matriculation number. Students are therefore strongly advised

to know and to be always definite about their matriculation numbers, and to use these numbers on all official transactions, including payment of fees.

A student is expected to retain his matriculation number even if he changes college or course of study. Any student who attempts to obtain a second matriculation number will be disciplined.

IDENTITY CARD

Every registered student is to collect an official student identity card from the Students' Affairs Office upon the payment of the prescribed fee. The identity card is renewable from session to session, at no additional cost.

Any person, while in University premises, may be required, for reasonable cause, to identify himself upon request by authorized officials acting in the performance of their duties. All registered students are expected to have their card on with the University larnyard at all times within the University premises. Some University facilities are open only to students who are able to show valid identity cards. Students are, therefore, strongly advised to carry their identity cards with them always and be ready to produce them at any time on demand.

ACADEMIC SUPPORT UNITS

To enrich the curricula, the university has established some academic units apart from the academic departments in the direct teaching areas. Such units will help to develop the student in becoming a total man that is well equipped to face the challenges of the world outside the university environment. The units will also help to widen the horizon of the student beyond his area of specialization.

General Studies Unit

As part of the minimum academic standards, the National Universities Commission has made it mandatory for all undergraduate students in Nigerian Universities to study for and earn credit units in General Studies.

This requirement provides an opportunity for students to have some knowledge of other disciplines apart from their areas of specialization.

The University has therefore, set up a General Studies Unit to achieve the following objectives:

- a.) fostering the development of communication skills among students;
- b.) helping students to acquire the basic skills required for existence in a modern society.

The courses that must be passed by all undergraduate students before they graduate are:

- Use of English
- Introduction to Logic and Philosophy
- Nigerian Peoples and Cultures
- History and Philosophy of Science.
- Entrepreneurship (science students)
- Introduction to Computer (Students in the Colleges of Humanity and Management studies)

THE UNIVERSITY LIBRARY

THE USE OF THE e-CLASSROOM & THE CYBERCAFE

Learning in a technologically oriented environment enhances growth and boost the performance of every focused student.

The e-Classroom is a Computer laboratory, with a well designed and secured network whose back bone is braced with fibre optics into a miniature mainframe distribution system.

e-Classes are meant to have workstations which include audio visual equipment to achieve set goals and to encourage a better learning process.

What is a portal?

A portal is a private space that gives users in an organization the ability to organize information, ready access the information, manage documents, share calendars and enable efficient collaboration, all in a familiar, browser-based environment.

The concept for the deployment of a portal is to have both students and staff share information from anywhere, even outside the campus, irrespective of the distance, schedule presentation and lectures, send instant message to all students offering a specific course. The University portal shall also take care of tasks like submission of assignment by students, accessing of portal for assignment issued by lecturers.

Use of the e-Classroom

The e-Class will always be open from Mondays through Fridays between the hours of 8.30am – 5.00pm, and the period of service shall be extended in all special cases.

Staff and Students would only be allowed to use the e-Class when identified with the University ID card.

Students will be allowed to do all portal works (i.e. submission of assignment electronically, downloading of lesson notes, and transactions with e-shops), receive lectures and attend presentations in the e-Class.

Cybercafe

This is a public digital centre for both staff and students of the University. The basic operation that the café deploys is to have users buy tickets and access the internet for information.

Wireless Fidelity (wi-fi): allows you to connect to the internet from virtually anywhere at speeds of up to 54Mbps. Wi-Fi enabled computers and handsets use radio technologies based on the IEEE 802.11 standard to send and receive data anywhere within the range of a base station.

To complement the services offered by the café, considering convenience, we have also added to our network design, Wi-Fi which would also be a means of accessing websites, though, not without the use of purchased tickets. This can be done on any laptop or computer with a wireless card within the range of approximately 80 to 100 meter from the base station which is at the MDFS (IT Department).

e-Classroom & Café Rules

- 1.) All cell phones must be switched off when in the e-class or Cybercafe.
- 2.) Eating, smoking and drinking are prohibited in these centers.
- 3.) Browsing of pornographic pages and website is a serious offence. Defaulters face expulsion.
- 4.) Unauthorized persons are not allowed to operate any audio visual equipment in the e-classroom.
- 5.) The cybercafé should not be used as a centre for sending spam mails or doing any fraudulent work.
- 6.) Littering is prohibited.

THE UNIVERSITY HEALTH SERVICES

The University Health Centre provides Promotive, Preventive and Curative Health care to all students of the Redeemer's University.

In achieving these important objectives there is a need for the past medical history of the students to be fully recorded during registration at the Health Centre. This is to maintain a bridge between Medical Care at home and the University Health Centre.

Registration at the University Health Centre

- 1.) It is compulsory and a pre-condition for admittance into the Hall of Residence, for all students to register with the University Health Centre.
- 2.) A student may receive medical treatment at the University Health Centre, only after proper registration.
- 3.) At registration, every student is expected to complete a form containing his or her biodata, previous illnesses, drug history, including drug reactions and the address of next of kin.

- 4.) New students are also expected to produce a recent X-ray of the chest, two passport sized photographs and then undergo a full medical examination with laboratory tests.
- 5.) After registration, every student is given a small card which contains his registration number in the University Health Centre. This card should be produced at every clinic visit.

Services rendered by the University Health Centre

1. Pre-employment and pre-admission, medical examination of staff and students respectively.
2. Health education for students and entire University Community.
3. Family Planning Services
4. Environmental sanitation, refuse collection, disposal, and inspection of food vendors.
5. Immunization against major infectious diseases for children
6. Fertility and life awareness education.
7. Diagnosis and treatment of common diseases and injuries.
8. Provision of essential drugs.
9. Laboratory services.
10. Minor surgical operations.

Hours of Duty:

The Health Centre is open 24 hours.

However, the following hours of duty are observed for the clinic consultations:

8am	–	10am	-	Senior Staff and their dependants
10am	–	12 noon	-	Students
12 noon	–	2pm	-	Junior Staff and their dependants

Emergency cases are attended to any time of the day or night. There is also a provision for admission into the wards for further care and ambulance service for cases referred to other hospitals.

Procedures at the Centre

1. Treatment at the University Health Centre is based on first come first served, except for emergencies.
2. Students are required to come for clinic at the time approved for them, that is 10a.m. to 12 noon
3. If a student considers that his or her case is an emergency and comes outside the scheduled time he or she would be required to see the Principal Nursing Sister who on evaluation of the case may instruct the medical records clerk to pull out the case note for the attention of the Doctor. On the other hand, the nurses may provide first aid care and request the student to report for review by the doctor at the next clinic day and period.
4. On arrival at the clinic, the student presents his or her card to the medical records clerk who pulls out the case note and sends the patient to the nurses for blood pressure, temperature and weight measurements. The case note is subsequently sent to the doctor for consultation. A prescription paper is then written containing the drugs the patient is to receive in the pharmacy.

Other procedures such as injections, dressings, minor operations or admission into the wards may be ordered by the doctor. Students and Staff are required to pay a token amount for laboratory tests in the Health Centre.

Qualifications for free medical care:

- 1.) Only those who are current students of the Redeemer's University (RUN) and are registered with the Health Centre are qualified for free medical care.
- 2.) Dependants, relatives or friends of students are not qualified for medical treatment at the Health Centre.
- 3.) Students are not entitled to free medical care when the University is not in session except on special recommendation by their heads of department for students carrying out projects during vacations.
- 4.) Parents of Students would be responsible for the cost of treatment for students referred to other Hospitals.

Endorsement of Sick Leave Certificates for Students:

A student may not be able to attend some important academic assignments such as lectures, and examinations due to ill health. In this situation, the Senate

would only consider these cases after appropriate recommendation by the Director of Health Services.

The following are conditions which would guide the Director of Health Services in endorsing sick leave certificates from outside the University. It is important for students to take note of these conditions to guide their actions if or when they fall ill:-

- 1.) If the University is in session, a student who is ill should report first to the University Health Centre. The Medical Officer on proper evaluation of this student may decide to refer him or her to a better centre for treatment.
- 2.) If after being seen in the Health Centre, a student for financial or other reasons known to him has to go home for further treatment, the University Medical Officer would be aware of this situation.
- 3.) When the University is not in session, a student who falls ill and the period of the illness extends to the period of resumption, shall notify the University medical officer through his attending physician as soon as possible after resumption.
- 4.) Other cases that come outside the conditions discussed in 1, 2 and 3 will be considered strictly on their own merit. In such circumstances, endorsement of sick leave certificates will not be automatic.

DIRECTORATE OF STUDENTS' AFFAIRS

The activities of this directorate are directed towards making the campus life a rich communal experience. This is achieved by striking a balance between the academic and the spiritual.

The following services are provided by the directorate:

1.) CHAPLAINCY AND COUNSELLING SERVICES

One of the uniqueness of this University is the type of services offered by the Chaplaincy. It is the goal of this unit to produce godly character in every student. Since the spiritual life of the student is an important element in the formation of the total person, the University will make available all the resources necessary to enhance it. As a Christian University committed to the transformation of the Nigerian society through the provision of total quality education, the development of the total person will depend largely on the spiritual climate of the institution.

To this effect, the unit will supervise "My Personal Journal" programme to ensure compliance by every student. This programme encourages every

registered student to read through the Bible during the first three years of his/her stay in the University.

The unit will also ensure that students attend and are well catered for in all the devotions and worship services. There are corporate daily morning worship, weekly group Bible Study, and Sunday Celebration worship service. Attendance is compulsory for all students. These programmes are put in place to prepare each student spiritually and emotionally for the rigour of academic life demanded by the University.

The University also provides adequate counselling services to cover every area of the student's life, viz, academic, pre-marital, spiritual, vocational, and any other aspect where the student needs adjustment. Experts in the various fields of counselling are available to offer their services to any student that needs such. We recommend that our students should make use of all these services where and when necessary. Members of staff could also refer students to this unit for immediate assistance.
