A Publication of REDEEMER'S UNIVERSITY

Happy

80th
 Birthday
 Celebration
 to our Visitor,
PASTOR ENOCH ADEJARE ADEBOYE

May your strength be renewed in Jesus Name!

NUC APPROVES FOUR NEW PROGRAMMES FOR REDEEMER'S UNIVERSITY

The National Universities Commission (NUC) has approved four new programs for Redeemer's University, Ede, Osun State. The programs are B.Sc. in Cyber Security, B. Sc. in Information Technology, M. Phil and Ph.D. in Biochemistry, and PGD, M.Sc., and Ph.D. in Finance.

According to the letter signed by Dr. N.B. Saliu, Director of Academic Planning, National Universities Commission, on behalf of the commission's Executive Secretary, Professor Abubakar Rasheed, all the approved programmes would take a full-time mode of delivery and be run in the main campus of the University with effect from the 2022/2023 academic session.

Meanwhile, the Vice-Chancellor, Professor Anthony Akinlo, was elated to receive the news of the approval for the new programmes and commended everyone that worked towards the success of the resource verifications. He added that the approval would further energise the University's commitment to providing educational services that enhance the employability of its graduates in the competitive labour market and position the institution as a leading citadel of learning in Nigeria.

- ★ NUC Approves Four New Programmes for Redeemer's University
- ★ Tekena Tamuno Library fetes with Daddy G. O @ 80
- ★ Department of Nursing Science, Human Physiology get Ag. Head
- ★ SEAP Chairman carries out SOD-Turning for 150-Seater LH

Middle: The Vice-Chancellor, Prof. Anthony Akinlo, Deputy Vice-Chancellor, Prof. (Mrs.) Adebileje, Bursar, Mrs. Olutayo-David, Ag. University Librarian, Dr. Adeleke and two other principal staff in the library.

TEKENA TAMUNO LIBRARY FETES WITH DADDY G.O @ 80

The Tekena Tamuno Library joins millions across the globe to celebrate the Visitor to the University for God's faithfulness to him over the years with a one-week exhibition of his books, pictures, quotes, videos, etc to tell the story of his life and ministry. Video documentaries based on the life of the General Overseer will be showcased at the library throughout the period.

The Vice Chancellor, Professor Anthony Akinlo, who was at the library to catch sight of the exhibition commended the Acting University Librarian, Dr. Akinniyi Adeleke on this innovative idea and gave kudos to the Tekena Tamuno Library team. The Deputy Vice Chancellor, Professor (Mrs) Adebola Adebileje and the Bursar, Mrs Mofoluso Olutayo-David also commended the effort of the school's library on their thoughtfulness.

Some of the materials for the exhibition are clippings of newspapers and magazines which dates as far back as 2007. In the book

titled "Who is who in Nigeria" Pastor Adeboye's profile is at the fore-front. 80 things about Daddy G.O and all his publications were also exhibited.

Members of staff are also being invited to visit the exhibition and learn more about our Daddy, the Visitor to the University.

DEPARTMENT OF NURSING SCIENCE, HUMAN PHYSIOLOGY GET ACTING HEAD

Professor Anthony Akinlo's led management of the Redeemer's University has appointed the duo of Dr. Adesola Ogunfowokan and Dr. Ibukun Oyeyipo as the Acting Head, Department of Nursing Science and Department of Human Physiology in the Faculty of Basic Medical Sciences, respectively, for the 2021/2022 academic session.

According to the memo signed by the Registrar, Mr. Olukayode Akindele, the appointments take effect from 1ST March 2022 to 31st July, 2022.

The foundation laying of 150-seater LH by the Chairman, SEAP, Pastor Olatunji Oladokun (JP), the Vice-Chancellor and other members of staff

SEAP CHAIRMAN CARRIES OUT SOD - TURNING FOR 150-SEATER LH

The Vice Chancellor, Professor Anthony Akinlo, has shown his gratitude to God for His enabling grace that has made the sod-turning of the proposed 150-seater lecture hall donated by Pastor Olatunji Oladokun (JP), Chairman, SEAP Holdings a possibility. He added that anyone who partners with God never regrets it. It was to this end that he said a word of prayer to the generous donor stating that as his hands started it, his hands will complete it in Jesus' name.

The SEAP boss, who is also the magnanimous donor, is a Pastor in one of the Redeemed Christian Church of God

parishes in Ilorin. During the sod-turning at the school's permanent site, he said that the building would be sufficiently equipped to be termed "small but mighty." He further added that it would be completed before the proposed time by God's grace.

The Council Chairman, Pastor E. A. Odeyemi represented the Visitor to the University and General Overseer, RCCG, Pastor E. A. Adeboye to Commission the Faculty of Basic Medical Sciences New Building alongside with the Vice-Chancellor and his management team

RUN VISITOR INAUGURATES ENOCH AND FOLU ADEBOYE FACULTY OF BASIC MEDICAL SCIENCES ...urges staff to show more commitment

The General Overseer of Redeemed Christian Church of God (RCCG) and Visitor to the University, Pastor E. A. Adeboye, has said that Redeemer's University, Ede, Osun, is now positioned to compete with other outstanding universities globally.

Adeboye said this at the inauguration of a multi-billion-naira Faculty of Basic Medical Sciences building, donated by him and his wife, Pastor Folu Adeboye.

The clergyman, who was represented by the institution's Pro-Chancellor and Chairman of Council, Pastor Ezekiel Odeyemi, said that the building would enhance academic excellence which the university was known for.

According to him, the university has already registered its name on the international map. He said that the institution was not

only competing locally but poised to challenge other world-leading institutions like Universities of Oxford, Harvard, Cambridge and Howard.

While stating that the inauguration of the project was the beginning of miracles that would happen to the institution, he urged all staffers to show commitment to its rapid growth.

The RCCG General Overseer urged the University to be committed to improvement in its operations so that it could excel and maintain its mantra of greater achievements and continuous improvement.

The building houses Departments of Nursing, Biochemistry, Physiology, Physiotherapy and Anatomy.

The University Governing Council in consultation with the management

team decided to name the multimillion-naira ultra-modern building after Daddy and Mummy Adeboye in appreciation of their uncommon devotion and sterling contributions to the development of the University.

He also sounded a note of warning that what has taken the University to this height is not what will take it higher and further and that there is a need for higher devotion and commitment to attain greater success.

PROFESSOR AFOLORUNSO DAIRO'S BIRTHDAY

Professor Afolorunsho Olalekan Dairo who is the Dean of the Faculty of Humanities celebrated his 60th birthday and launched his festschrift recently.

The event was organised in his honour by his students who came to celebrate their iconic teacher, mentor and coach whose life has impacted them greatly.

HEALTH CORNER

Enjoying fruits and vegetables is a great way to improve your health and actually enjoy what you eat. While it may take a little creativity, effort and an open mind to try new things, switching to a diet with more fruits and veggies is definitely worth it!

Fruits are excellent source of essential vitamins and minerals, and they are high in fibre. Fruits also provide a wide range of health-boosting antioxidants, including flavonoids. Eating a diet high in fruits and vegetables can reduce a person's risk of developing heart disease, cancer, inflammation, and diabetes.

There are inexhaustible benefits one can acquire from apples for instance.

- Apples make a quick and easy addition to the diet. Eat them with the skin on for the greatest health benefits.
- Apples are high-fibre fruits, meaning that eating them could boost heart health and promote weight loss. The pectin in apples helps to maintain good gut health.
- Apples also have high levels of quercetin, a flavonoid which may have anti-cancer properties.

One study found that people who ate whole apples were 30 percent less likely to be obese than those who did not. This can lower the risk for diabetes and heart disease.

One medium apple contains the following nutrients:

- 95 calories
- 25.13 g of carbohydrate
- 4.4 g of fibre
- 195 mg of potassium
- 11 mg calcium
- 8.4 mg vitamin C

Research has shown that there is a link between eating apples regularly and a lower risk of cardiovascular disease, certain cancers, and diabetes.

RUN MATRICULATES 1,340 STUDENTS

The recently held 17th matriculation ceremony since the university's inception in 2005 was a huge success.

The Vice-Chancellor, Prof. Anthony Akinlo, said the fresh intakes were those who

passed the University Tertiary Matriculation Examination (UTMEs), Direct Entry (DEs), and students on transfer.

Akinlo said the fresh intakes had been prayerfully christened; “*Indomitable Set*”, which connotes: “No one can

stop you from rising and fulfilling your destiny”.

He further urged parents and guardians to work with the university in the nurturing of their wards to excel in all spheres of life.

DELIBERATELY SHUN EVIL, DEAN ADVISES MANAGEMENT SCIENCES FRESHMEN

The Dean of the Faculty of Management Sciences, Professor (Mrs.) B. Adeleke, has charged the new students to deliberately shun evil. The Professor said this while giving her keynote

speech during the orientation session organised by the faculty with the Chairman of the committee, Dr. O. Omoyele for the new students.

She admonished the students by informing them that there is a seed

in them that can change the world like the school anthem predicts but to get to that position, they must first know God and honour Him. The Dean thanked the organising committee, the HODs and Faculty Officers.

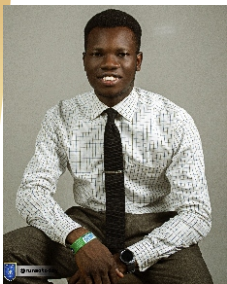

The various Heads of Departments, Dr. Kenneth Okpala, Department of Accounting, Dr. M. Akpor-Robaro, Department of Business Administration & Marketing, Dr. T.D Ayodele Department of Finance & Insurance and Dr. A.F. Oluwakoya, Department of Transportation Management, intimated the students on possible career paths for their course of study and encouraged them to put in their best in the forthcoming examination.

DR. OLUGBEMI DONATES MALE STUDENT'S LOUNGE

Dr. Bayo Olugbemi, President of the Chartered Institute of Bankers of Nigeria (CIBN), has donated a building to the university for the use of male students. The building is set for inauguration at a date to be disclosed by him.
